

# Pizon Shetu

## has successfully completed Data Science Career Track

A 600-hour online course that covers Machine Learning, Recommendation Systems, Time Series Analysis and Social Network Analysis in Python. Pizon Shetu participated in weekly live 1:1 mentoring sessions with an industry-experienced data scientist, and successfully completed two final projects, "New York City Housing Market" and "Classification of Bird Species" that were reviewed by an independent industry expert.

### Mini-Projects Completed

- Three Exploratory Data Analysis projects
  - Linear & Logistic Regression
  - Time Series Analysis
  - Recommender Systems
  - Naive Bayes
- Customer segmentation using clustering
- MapReduce with Spark

### Topics Covered

- Programming in Python
- Software engineering principles
  - Data Wrangling
  - Inferential Statistics
  - Machine Learning
  - Data at Scale
  - Data Storytelling
- Recommender Systems
- Time Series Analysis
- Social Network Analysis
